I. ABOUT THE CONFERENCE

Target Audience:
The target audience for this conference is UIC academic fiscal officers and school/college/department administrators with high-level research, human resources, and business and finance responsibilities.

Mission:
This professional development conference will strive to provide the target audience with knowledge, resources, and networking opportunities to enable them to manage the challenges they face and pursue excellence in their roles at the University. The conference planning team defines professional excellence as:

- being proactive through forecasting and planning versus being reactive;
- being open to different ways of doing business and developing creative solutions to business problems;
- breaking down silos and establishing connections across disciplines;
- seeing the big picture and understanding one’s contribution to it;
- networking and collaborating both within one’s department, as well as with other departments and units;
- actively developing one’s professional career and the careers of staff members; and,
- having a firm understanding of the UIC environment – being aware of changes that significantly impact the University and implementing goals that support the UIC strategic plan.

Goals:
The primary goals of the conference include the following:

1. to facilitate the sharing of best practices, new knowledge, tips, and tools that are relevant to this target audience and that can be passed down to their staff;
2. to provide a forum for this target audience to share problems and concerns and develop possible solutions for some of the most challenging issues they face;
3. to encourage networking and collaboration across units, departments, and schools/colleges; and,
4. to recognize the importance of the work being done by this group of administrators and foster a greater sense of purpose and camaraderie.

Theme:
The content of the conference (workshops, plenary sessions, etc.) is designed around a theme which changes with each conference. The theme for the 2011 conference is “Empowering UIC’s Performance & Achievement Through Teamwork”. STATUS OF ACADEMIC DIRECTIONS AND THE ADMINISTRATIVE REVIEW & RESTRUCTURING INITIATIVE AT UIC

Presented By: Lon Kaufman, Vice Provost for Planning and Programs

Target Audience: Advanced

Description: The presentation will review progress, findings, and recommendations of the five UIC Administrative Review and Restructuring (ARR) Task Forces with the main focus being the Academic Directions Task Force. Here the presentation will focus on identifying a process for assessing the academic qualities of UIC’s 91 departments, lessons learned along the way, and the current status of the project. Discussion will be invited on how to integrate what we’ve learned through the Academic Directions process into an annual report that will also be useful for department heads and deans, and that will also inform the eight year IBHE Academic Program Review process and the 10-year NCA re-accreditation process.

Learning Objectives:
1) Learn the current status of the campus ARR task force and future plans for the campus ARR Task Force findings;
2) Receive detailed knowledge of the process used by the Academic Directions Task Force;
3) Gain an understanding of how we might integrate, synergize and, hopefully, not duplicate the academic directions processes with an annual report that can serve both our IBHE and NCA reporting requirements.

SPONSORED PROGRAMS COMPLIANCE: IT’S NOT JUST VAPORWARE!

Presented By: Vanessa Peoples, Executive Director, OBFS Grants and Contracts
Fuller Lyons, Associate Director, OBFS Grants and Contracts
LaShawnda Hall, Assistant Director, OBFS Grants and Contracts

Target Audience: Intermediate

Description: How vulnerable is your department during the federal audit? This workshop is designed to discuss the FY09 and FY10 federal A133 audit findings focusing on lessons learned and eminent changes. Although your award may not have been selected for audit this year, these findings apply to everyone conducting research and you will find through the case study format how vulnerable your departmental practices may be. We will give a high level overview of the overall process but more importantly, you will discover how you can address the practices deemed inappropriate, inadequate or unacceptable from the auditors’ perspectives. All cases will be real cases based on UIC experiences but the names will be changed to protect the innocent.

Learning Objective: Understand how the recent federal compliance audits are changing the landscape of research administration at the department and central office level.
